

## **□ Program / Project Management**

Delivering results on time and on budget is only the beginning. BSP goes beyond schedules and budgets to bring tangible value to achieve corporate goals.

Our consultants bring vast hands-on project management experience from the leading management consulting firms including Accenture, Kurt Salmon, IBM, and McKinsey & Company to name a few. Our project management philosophies are based on years of field experience. We have honed many of our approaches based on methods that have consistently delivered success.

Our consultants are certified in one or more methodologies. This varied experience allows us to use standard methodologies or customer specific methodologies and to quickly develop project plans at the optimum level of detail.

We offer a full spectrum of services from coaching to serving on your project team – even taking full ownership of the engagement.
